[00:00:00] Night ops Clear Creek structure. Were you trying to reach me earlier? Having some radio issues up here at [static]

c1212_29_08_2009_051621

[00:00:00] Yeah we were just looking at a report actually.

[00:00:07] I copy and things are looking pretty good. All we have a type one strike team down at the school stuck in that and there's been some defensible [static] break.

c1212_29_08_2009_051649

[00:00:00] Also opened up a road that goes down into there with a golf strike team to clean it up, and then now we have them up here at the Forest Service Station. The fire has crested the ridge, that's just.

c1212_29_08_2009_051706

[00:00:00] South of the fire station. Break.

c1212_29_08_2009_051716

[00:00:00] On that, on that ridge there is a fuel break that we just put in about a month ago so we're going to set that and see if it holds. The biggest issue we have is rollout from that coming down across the road, and getting in here, so we're holding our own.

[00:00:21] Ok was there a little slopover that actually came off the highway [static] that starting sliding today.

c1212_29_08_2009_051755

[00:00:00] Affirmative talking to the locals here. There was a small slop near George's gap, but it was lined and put to bed.

[00:00:12] Ok did any of your folks actually see that [static]?

[00:00:18] That's a negative.

[00:00:11] I'm assuming they added some different divisions you know I'm just not aware of that working through the night, but trying to get Charlie Charlie to meet with her, and it sounds like she's going on a road that I'm not familiar with, and I tried to let her know that I'm here at the Angeles Crest Station.

[00:00:32] Did you have a convo with her on this frequency?

[00:00:36] Affirm but unable to get her past ten minutes.

[00:00:16] I'm right here at Angeles Crest station right at, or right off the main highway here. Are you on top of the mountain?

[00:00:27] Affirmative. Did you have any concerns last night?

[00:00:34] Negative it was really quiet, and no activity at all, and I just had the guys on [static] and just looking, patrolling [static].

[00:00:45] If you're going to have your resources go down Angeles Crest Highway then I think we're going to be alright having people come up Earl Mountain Canyon.

[00:00:57] About how long did it take you to get up there, because it's not that far of a jog from the station here to get up to your location.

c1212_29_08_2009_073511

[00:00:00] From Foothills Boulevard probably about twenty minutes.

[00:00:07] That's not bad yeah that whole section there was really cold there last night Nikki, and I flagged off some areas there. One the water tank at Bravo Yankee Division, and one [static] flagging on [static] next to the road there it's about four or five

strands on there, and we just made it look a little different.

c1212_29_08_2009_073548

[00:00:00] Copy. You guys punched some line in then?

[00:00:04] We're just marking out the Division boundary.
